CUSTOM MODELS AVAILABLE UPON REQUEST

Our Crane Baskets are constructed with 2" x 2" square tube throughout. It is further reinforced and gusseted at critical points for additional strength.

Our Test Weight is designed to line up quickly with the bottom hook points on the basket for fast & easy testing of the basket. We ship these empty to be filled on site with concrete. This saves money in shipping costs.

Koke Crane Baskets meet the following regulations:

OSHA 29CFR1910 General Safety Requirements

OSHA 29CFR1926.502 Guardrail System

OSHA 29CFR1926.550 Requirements for Cranes & Derricks

OSHA 29CFR1926.104 Harness Anchors
