

## MBF SERIES OPERATING INSTRUCTIONS

1. Make sure forklift is operated ONLY by a trained and certified forklift driver.
2. Drive forklift forks fully into the man basket's fork pockets.
3. Wrap safety chain around fork carriage and hook back onto itself taking care to remove as much slack from the chain as possible.
4. Open door to the man basket by first lifting then swinging door in.
5. Personnel entering basket must have a full body harness with lanyard.
6. Attach lanyard to any Lanyard Hook Point (see drawing for typical locations) in man basket.
7. Close door by lifting the door up approx. an inch, swinging door fully closed and lowering door catch into socket.
8. Note to forklift driver: While there is personnel in the man basket, the man basket can only be raised or lowered. No horizontal movement is allowed (i.e. No driving around with personnel in the man basket).
