THE 4 BASIC COMPONENTS OF A CRANE BASKET SET UP

1

BRIDLE

MB-O-BR10 4 point 10'L w/ safety line
(Many job sites require the safety line)

You need one that is rated and properly tagged for personnel use.

2

HARNESS & LANYARD

MB-O-HR Full Body Harness with 6' Lanyard
OSHA Reg 1926.1431(k)(10)(i) requires a personnel fall arrest system

3

CRANE BASKET

MBC-3636 36" x 36" Crane Basket
MBC-4848 48" x 48" Crane Basket
MBC-9648 96" x 48" Crane Basket

MBR-9642 96" x 42" Rescue Basket

All of our Crane Baskets meet OSHA Reg 1926.1431

4

TEST WEIGHT

MB-O-T1250 1,250 LB. Test Weight Frame
MB-O-T1875 1,875 LB. Test Weight Frame

Ours is an open metal box that needs to be filled with concrete before first to achieve the required weight. We do this to save you significantly on the freight

Test weights are required by OSHA Reg 1926.1431(j)(1) You don't need to buy ours. But you do need one on site that weighs 125% of the rated capacity of the crane basket.
